

MEDIA RELEASE

CONEXUS appoints new officers for 2019

CONEXUS Mobile Alliance, one of Asia's biggest mobile alliances, has elected its new officers for 2019.

Mr. Supoj Mahapan, Managing Director-International Carrier and Alliance Management for True Corp. in Thailand, is now CONEXUS Board Chair. He succeeds Mr. Katsuyuki Takagi, Senior Vice President and Executive General Manager of Global Business Division of NTT DOCOMO, INC. who held the post from 2017 to 2018. During his leadership, Mr. Takagi was instrumental in shifting the alliance focus towards transformation from foundation of CONEXUS - enterprise and roaming collaboration - towards digital transformation. Taking over the paths opened by Mr. Takagi, Mr. Mahapan will further pursue best practice and innovations sharing in the areas of, for example, 5G and IoT among Conexus members.

Under Mr. Mahapan's Chairmanship, two Deputy Chair positions have been assigned; one is for Ms. Katrina Luna-Abelarde, PLDT First Vice President and Head of International & Carrier Business and PLDT Global Corp. President and CEO; and the other is for Mr. Dennis Wong, Corporate and International Business Director of Hutchison Telecommunications (Hong Kong) Limited (HTHK).

Along with the changes in Board members, the Workgroup and Project group leaders have been newly elected as well. Mr. Keijiuro Murayama, Executive Director of Global Business Division of NTT DOCOMO, INC., was elected chair of Conexus Strategy Workgroup, responsible for formulation and execution of strategy for Conexus Mobile Alliance. Mr. Young Kim, Deputy Director of Roaming Business Department at KT

Corporation, was elected chair of International Roaming Workgroup. Mr. Jude Tan, Head of Enterprise Mobility of StarHub, was elected Enterprise Sales Project Lead.

About Conexus

The alliance is formed to primarily develop and enhance international roaming and corporate mobile services for greater convenience and ease of use for its members' customers. The alliance boasts a combined customer base of about 321 million mobile subscribers in members' markets. The alliance is committed to promoting voice, video and data roaming via its members' GSM, W-CDMA, LTE and IoT networks.
